Windows on Nature: The Great Habitat Dioramas of the American Museum of Natural History By Stephen Christopher Quinn

New York City's American Museum of Natural History is a national treasure, attracting four million visitors annually. Its dioramas—a dazzling mixture of nature, science, and art—have inspired young and old alike, and are world-renowned examples of the unique diorama craft: art in the service of science. Now, in the only book of its kind, readers get an insider's view of these "windows on nature," witnessing their creation step by meticulous step.

More than forty of the museum's finest dioramas are featured here, depicting the fauna and flora of myriad ecological environments. Stephen Quinn, a diorama artist at the museum, introduces the explorers, naturalists, painters, sculptors, taxidermists, and conservationists behind these three-dimensional marvels, and explains how their collaborations make the displays so lifelike. This enchanting book is the perfect gift for nature lovers, art enthusiasts, and museum goers everywhere.

Editorial Review

About the Author

Stephen Christopher Quinn joined the staff of the American Museum of Natural History in 1974. As senior project manager for exhibitions, Quinn oversees all aspects of new diorama creation, conservation, and restoration. A longtime member of the Society of Animal Artists, Quinn lives in Ridgefield Park, New Jersey.

Users Review

From reader reviews:

Tina Olsen:

What do you consider book? It is just for students as they are still students or that for all people in the world, the actual best subject for that? Only you can be answered for that concern above. Every person has different personality and hobby for each and every other. Don't to be pressured someone or something that they don't desire do that. You must know how great and important the book Windows on Nature: The Great Habitat Dioramas of the American Museum of Natural History. All type of book is it possible to see on many solutions. You can look for the internet sources or other social media.

Anna Raynor:

In this 21st century, people become competitive in most way. By being competitive at this point, people have do something to make all of them survives, being in the middle of the actual crowded place and notice through surrounding. One thing that sometimes many people have underestimated this for a while is reading. Yes, by reading a publication your ability to survive increase then having chance to endure than other is high. For you who want to start reading a book, we give you this specific Windows on Nature: The Great Habitat Dioramas of the American Museum of Natural History book as basic and daily reading e-book. Why, because this book is more than just a book.

Whitney Martinez:

Reading a e-book tends to be new life style in this particular era globalization. With looking at you can get a lot of information that may give you benefit in your life. Using book everyone in this world can easily share their idea. Ebooks can also inspire a lot of people. A lot of author can inspire their very own reader with their story or their experience. Not only the story that share in the publications. But also they write about the knowledge about something that you need example of this. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that exist now. The authors nowadays always try to improve their skill in writing, they also doing some exploration before they write with their book. One of them is this Windows on Nature: The Great Habitat Dioramas of the American Museum of Natural History.

Karen Lambert:

As a university student exactly feel bored to reading. If their teacher questioned them to go to the library or even make summary for some reserve, they are complained. Just small students that has reading's heart and soul or real their interest. They just do what the educator want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that examining is not important, boring and can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this Windows on Nature: The Great Habitat Dioramas of the American Museum of Natural History can make you truly feel more interested to read.
