

Identifying Wood: Accurate Results With Simple Tools

By R. Bruce Hoadley

Identifying Wood: Accurate Results With Simple Tools By R. Bruce Hoadley

With just the naked eye and a hand lens or elementary microscopy, you will be able to identify over 180 **domestic and tropical hardwoods and softwoods** by following the straightforward techniques in this book.

Bruce Hoadley, a professor of wood science and technology at the University of Massachusetts, Amherst, provides:

- an overview of the **wood identification** process
- a look at the basic anatomy of woody plants
- hundreds of easy-to-use charts and crystal-clear photographs and microphotographs
- sources of information and materials, and a glossary of all technical terms used in the book

Editorial Review

About the Author

R. Bruce Hoadley has a degree in forestry from the University of Connecticut and a doctorate in wood technology from Yale. He is a former professor of wood science and technology at the University of Massachusetts at Amherst. He frequently consults for museums and acts as an expert witness at trials. He is also the author of *Understanding Wood* (The Taunton Press, 1980, 2000) and *Identifying Wood* (The Taunton Press, 1990).

Users Review

From reader reviews:

Donna Wood:

Do you have favorite book? For those who have, what is your favorite's book? Guide is very important thing for us to understand everything in the world. Each reserve has different aim or even goal; it means that publication has different type. Some people really feel enjoy to spend their time to read a book. These are reading whatever they consider because their hobby will be reading a book. Why not the person who don't like reading through a book? Sometime, particular person feel need book after they found difficult problem as well as exercise. Well, probably you'll have this *Identifying Wood: Accurate Results With Simple Tools*.

Clarence Cavins:

Reading a publication can be one of a lot of activity that everyone in the world adores. Do you like reading book so. There are a lot of reasons why people love it. First reading a book will give you a lot of new data. When you read a publication you will get new information since book is one of numerous ways to share the information or maybe their idea. Second, reading through a book will make a person more imaginative. When you reading through a book especially fictional book the author will bring one to imagine the story how the character types do it anything. Third, it is possible to share your knowledge to others. When you read this *Identifying Wood: Accurate Results With Simple Tools*, you could tells your family, friends and soon about yours publication. Your knowledge can inspire others, make them reading a publication.

Kimberly Plummer:

The book untitled *Identifying Wood: Accurate Results With Simple Tools* contain a lot of information on this. The writer explains your girlfriend idea with easy way. The language is very easy to understand all the people, so do not necessarily worry, you can easy to read this. The book was authored by famous author. The author will take you in the new period of literary works. It is easy to read this book because you can continue reading your smart phone, or program, so you can read the book throughout anywhere and anytime. If you want to buy the e-book, you can start their official web-site and order it. Have a nice read.

Mary Adams:

As a pupil exactly feel bored to help reading. If their teacher expected them to go to the library or make summary for some publication, they are complained. Just small students that has reading's heart and soul or real their hobby. They just do what the instructor want, like asked to go to the library. They go to generally there but nothing reading really. Any students feel that studying is not important, boring along with can't see colorful images on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this Identifying Wood: Accurate Results With Simple Tools can make you feel more interested to read.
