Technical Drawing for Engineering Communication By David E. Goetsch, Raymond L. Rickman, William S. Chalk

TECHNICAL DRAWING FOR ENGINEERING COMMUNICATION, 7E offers a fresh, modern approach to technical drawing that combines the most current industry standards with up-to-date technologies and software, resulting in a valuable, highly relevant resource you won't want to be without. The book builds on features that made its previous editions so successful: comprehensive coverage of the "total technical drawing experience" that explores both the basic and advanced aspects of engineering and industrial technology and reviews both computer modeling and more traditional methods of technical drawing. Enhancements for the seventh edition include updates based on industry trends and regulations, an all-new chapter on employability skills, and additional content on SolidWorks 3D modeling software for drafting technicians. The end result is a tool that will give you the real-world skills needed for a successful career in CAD, drafting, or design.

Editorial Review

About the Author

Dr. David Goetsch is a member of the American Management Association, the Florida Association of Community Colleges, and the American Society for Quality. He is a past recipient of the U.S. Secretary of Education's Award for Outstanding Technical Program in the United States and the Outstanding Technical Educator Award in Florida. Dr. Goetsch is currently Vice President and Professor Emeritus at Northwest Florida State College.

Ray Rickman is a professor of Drafting and Design and Chair of the Industry and Technology Department at Northwest Florida State College.

Users Review

From reader reviews:

Jake Leslie:

The book Technical Drawing for Engineering Communication make you feel enjoy for your spare time. You need to use to make your capable a lot more increase. Book can to get your best friend when you getting anxiety or having big problem using your subject. If you can make examining a book Technical Drawing for Engineering Communication for being your habit, you can get a lot more advantages, like add your own personal capable, increase your knowledge about many or all subjects. It is possible to know everything if you like open up and read a reserve Technical Drawing for Engineering Communication. Kinds of book are a lot of. It means that, science e-book or encyclopedia or some others. So , how do you think about this publication?

Rocio Linville:

Information is provisions for folks to get better life, information presently can get by anyone in everywhere. The information can be a information or any news even an issue. What people must be consider when those information which is inside the former life are hard to be find than now is taking seriously which one is suitable to believe or which one the particular resource are convinced. If you get the unstable resource then you obtain it as your main information you will see huge disadvantage for you. All those possibilities will not happen in you if you take Technical Drawing for Engineering Communication as the daily resource information.

Denise Barnhart:

Typically the book Technical Drawing for Engineering Communication will bring someone to the new experience of reading a book. The author style to describe the idea is very unique. Should you try to find new book to study, this book very ideal to you. The book Technical Drawing for Engineering Communication is much recommended to you you just read. You can also get the e-book from your official web site, so you can

quickly to read the book.

Roxie Gregory:

The e-book with title Technical Drawing for Engineering Communication possesses a lot of information that you can learn it. You can get a lot of profit after read this book. This book exist new knowledge the information that exist in this reserve represented the condition of the world today. That is important to you to understand how the improvement of the world. This particular book will bring you inside new era of the syndication. You can read the e-book on the smart phone, so you can read this anywhere you want.
