The frequencies of Rifing - From the first frequencies discovered by Royal Rife to today.: Guide to selection and use of Spooky2 frequencies By Ing. Marcello Allegretti

II EDITION - Frequencies of Rifing is a comprehensive list of frequency sets used for a Rife Machine. Rife Machines are spreading throughout the world and is a topic of interest that is growing fast. Most of the time, those who own such an electronic device do not know how to use it to its full potential. This is especially true regarding how many frequency sets exist today and what frequencies can be used as a potential solution for a particular problem. Others rely on information that you can get from other sources – even online from the web. However, this information is typically listed in alphabetical order. This makes it extremely difficult to identify all possibilities or alternative sets that one may wish to use in their experiments for any given condition. In this guide, for the first time, you will find all the frequency sets used on a Rife Machine – both known and experimental. Also included are the frequencies used in Magnetotherapy, Light / Color Therapy, LED and laser therapies. More than 7000 frequency sets are listed (182 pages full color). They cover the human body organs, pathogens, diseases, homeopathic products, minerals, vitamins, chakras and more. They are sorted and catalogued in a way that makes it much easier to locate the information that will allow the best program choices. The frequencies covered in this Rife manual are useful for almost all Rife Machines; however, I think it is particularly suitable for all Spooky2 users. I believe that this device is the most complete and consistent Rife system on the current market. Also in ebook version.
