Dr. Allison Baker is obsessed with saving the comatose New Species male. She has tried everything and there's only one option left. Alli will break every rule and put her life in danger by tempting 880 to wake, using only her feminine scent and touch. She just has to kidnap him and crawl into bed with him to make it work. 880 wakes in a different world with a small female who's been sleeping beside him, caressing him and wrapping her sweet body around his, teasing his senses. He lies silent and still, listening and evaluating each arousing touch, fighting his body's reaction. Hatred flares when he discovers she's human, but Mercile stole everything from him so he decides it's fair to take her in return. But things quickly change and he wants her at his side and in his bed. 880 has chosen a new name—Obsidian—the personification of dark and dangerous. He'll fight them all to keep Alli. No one will stand in his way.

Editorial Review

About the Author

NY Times and USA Today Bestselling Author

I'm a full time wife, mother, and author. I've been lucky enough to have spent over two decades with the love of my life and look forward to many, many more years with Mr. Laurann. I'm addicted to iced coffee, the occasional candy bar (or two), and trying to get at least five hours of sleep at night.

I love to write all kinds of stories. I think the best part about writing is the fact that real life is always uncertain, always tossing things at us that we have no control over, but when you write you can make sure there's always a happy ending. I love that about being an author. My favorite part is when I sit down at my computer desk, put on my headphones to listen to loud music to block out everything around me, so I can create worlds in front of me.
