Starting with Alice By Phyllis Reynolds Naylor

Alice at EIGHT—and boy was she a pistol! The very youngest book in the beloved series gets a makeover.

Eight-year-old Alice McKinley wants pierced ears, really long hair, a pet, and, most of all, a mother. Oh, and some friends would be nice. As the new girl in third grade, Alice doesn't know a single kid in Takoma Park, Maryland, except her next-door neighbor Donald Sheavers, who is not only a boy, but seems a bit peculiar, too! Desperate to meet people, Alice learns that making friends is harder than it seems when she runs into a group of girls whom she nicknames the "Terrible Triplets" after they make it very clear that they do not want to get to know Alice.

As Alice navigates the ins and outs of third grade, there are plenty of bumps, giggles, and surprises along the way. Every girl should grow up with Alice, and with this irresistible new look, a whole new generation will want to.

Editorial Review

From Publishers Weekly

Alice fans (and their younger friends) are in for a treat as Phyllis Reynolds Naylor turns back the clock on the popular series hero: Starting with Alice documents the ups and downs of Alice's third-grade year. Two additional prequels are planned, to bring the younger Alice up to the point where the original series opener, *Alice in Agony*, begins. Ages 7-up.

Copyright 2002 Reed Business Information, Inc.

From School Library Journal

Grade 3-6-In this first of a trilogy of prequels, the author of the "Alice" books takes readers back to the protagonist's arrival in Takoma Park, MD. Alice gets off to a rough start at her new school, where she meets three girls who snub her and soon become her enemies. She also gets in trouble for lying to her classmates about how her uncle died, and for disobeying a crossing guard. Gradually, though, she finds reasons to like her new environment, including friends Rosalind and Sara and her father's gift of a kitten, and she discovers that it is easier to be a friend than an enemy, even when the enemies are the Terrible Triplets. At eight years of age, Alice is as thoughtful and engaging as her older self. Naylor captures the problems of starting over while coping with the everyday woes of teasing and managing friendships. The otherwise light tone of the book changes suddenly in the middle when Uncle Charlie dies of a heart attack just after Alice and her family return home from his wedding. While this sudden plot twist is a little jarring, Alice's feelings are presented in a believable, sensitive manner. Elementary-school girls will enjoy this introduction, while older fans may be curious enough about the spunky heroine to read about her earlier exploits.

From *Booklist*

Gr. 3-8. Since *The Agony of Alice* (1985), when Alice first appeared in sixth grade, Naylor has written 13 books in the hugely popular series about the motherless girl trying to follow the unwritten rules about growing up female now. Alice became older in each book (she's a high-school freshman in the recent *Simply Alice* [BKL Je 1 & 15 2002]). Naylor said in a *Booklist* "Story behind the Story" [BKL My 1 99] that she would stop when Alice turns 18. In this book, the first of several planned prequels to the 1985 book, Naylor goes back in time to find Alice in third grade. She has just moved to Takoma Park, Maryland, where her dad gets a job as manager in a music store, and her much older brother, Lester, fits in much better than she does. Her desperate need for the mother she lost when she was four is like an open wound as she struggles to make friends and feel at home. It will be interesting to see who the audience is for this younger Alice series. Will it break the credo that kids won't read about characters younger than themselves? Certainly, Alice fans who can't get enough of the characters will enjoy going backward, and there are a few sly jokes that they'll appreciate. Will third-graders start reading the series here? Alice does sound a bit wise for eight, but that sense of needing a mother-guide will strike a chord with girls of all ages. Then there's the question of the setting: Is the book set now? There aren't any e-mails or cell phones, but Alice wants pierced ears and green sparkle nail polish. As always, Naylor does a great job of blending the big emotional issues with the daily details that are both trivial and immensely important, and she does it with candor, tenderness, and truth.

From reader reviews:

James Miguel:

What do you concentrate on book? It is just for students as they are still students or it for all people in the world, the particular best subject for that? Simply you can be answered for that issue above. Every person has distinct personality and hobby for every single other. Don't to be forced someone or something that they don't desire do that. You must know how great along with important the book Starting with Alice. All type of book are you able to see on many methods. You can look for the internet sources or other social media.

Kenneth Clark:

Precisely why? Because this Starting with Alice is an unordinary book that the inside of the guide waiting for you to snap the item but latter it will jolt you with the secret that inside. Reading this book next to it was fantastic author who write the book in such wonderful way makes the content within easier to understand, entertaining method but still convey the meaning thoroughly. So , it is good for you because of not hesitating having this ever again or you going to regret it. This excellent book will give you a lot of advantages than the other book possess such as help improving your ability and your critical thinking technique. So , still want to hold off having that book? If I had been you I will go to the e-book store hurriedly.

Lisa Martin:

Reading a book to be new life style in this yr; every people loves to go through a book. When you read a book you can get a wide range of benefit. When you read publications, you can improve your knowledge, since book has a lot of information in it. The information that you will get depend on what kinds of book that you have read. In order to get information about your research, you can read education books, but if you act like you want to entertain yourself look for a fiction books, such us novel, comics, along with soon. The Starting with Alice offer you a new experience in examining a book.

Liza Serrano:

E-book is one of source of expertise. We can add our information from it. Not only for students but also native or citizen will need book to know the change information of year to be able to year. As we know those publications have many advantages. Beside many of us add our knowledge, may also bring us to around the world. By the book Starting with Alice we can take more advantage. Don't someone to be creative people? To be creative person must love to read a book. Simply choose the best book that suitable with your aim. Don't end up being doubt to change your life with this book Starting with Alice. You can more inviting than now.
