`A great basic book, which can be used by the novice qualitative researcher. The advice is friendly, almost folksy with clear

conceptual explanation of how the program works. A very welcome contribution to this field' - *Martha Ann Carey, Albert Einstein College of Medicine, New York*

This book invites readers to learn how to use qualitative data analysis software in the context of doing their research project. The reader follows basic steps for creating and conducting a real project with real data, using the new-generation software package, QSR NVivo. The software tools are introduced only as needed and explained in the framework of what is being asked. The reader is the craftsperson, trialling those to
