The SAGE Handbook of Feminist Theory From SAGE Publications Ltd

At no point in recorded history has there been an absence of intense, and heated, discussion about the subject of how to conduct relations between women and men. This Handbook provides a comprehensive guide to these omnipresent issues and debates, mapping the present and future of thinking about feminist theory.

The chapters gathered here present the state of the art in scholarship in the field, covering:

- Epistemology and marginality
- Literary, visual and cultural representations
- Sexuality
- Macro and microeconomics of gender
- Conflict and peace.

The most important consensus in this volume is that a central organizing tenet of feminism is its willingness to examine the ways in which gender and relations between women and men have been (and are) organized. The authors bring a shared commitment to the critical appraisal of gender relations, as well as a recognition that to think 'theoretically' is not to detach concerns from lived experience but to extend the possibilities of understanding.

With this focus on theory and theorizing about the world in which we live, this Handbook asks us, across all disciplines and situations, to abandon our taken-for-granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism.

It is an essential reference work for advanced students and academics not only of feminist theory, but of gender and sexuality across the humanities and social sciences.

Editorial Review

Review

Both the vibrancy and value of contemporary feminist theory are on display in this finely edited Handbook. Wide-ranging, innovative, and critically astute, the volume will be essential reading for those already attuned to feminist theory and to those finding their way in its debates for the first time.

(Professor Robyn Wiegman 2014-06-11)

Sustained by solid, interdisciplinary, feminist scholarship and cutting edge research, this Handbook takes its readers on an exciting journey through vast landscapes of feminist theorizing, covering an impressive number of issues from epistemologies and methodologies to key questions in feminist cultural studies, social sciences, economics and politics. A must for students and scholars who want an overview.

(Professor Nina Lykke 2014-06-13)

...this important addition to ongoing conversations in gender studies and feminist activism is methodologically and politically diverse. ...the collection is also rigorous and focused. Indeed, one of the volume's major contributions is the implicit and explicit insistence of nearly all of its contributors that even as readers become acquainted with what is now a well-established, if multifaceted, field—"feminist theory"—these same readers remain aware of the contradictions and tensions inherent in feminism as theory and feminism as lived experience. ...as an overview of feminist theory and public engagement, the book is a necessary read. Summing Up: Essential. All levels/libraries.

(R. A. Miller *CHOICE*)

Users Review

From reader reviews:

Johnny Cervantes:

Book is usually written, printed, or created for everything. You can realize everything you want by a guide. Book has a different type. We all know that that book is important matter to bring us around the world. Alongside that you can your reading skill was fluently. A publication The SAGE Handbook of Feminist Theory will make you to always be smarter. You can feel much more confidence if you can know about every thing. But some of you think that will open or reading a new book make you bored. It is not necessarily make you fun. Why they are often thought like that? Have you in search of best book or appropriate book with you?

Nathan Ramsey:

Do you like reading a book? Confuse to looking for your chosen book? Or your book was rare? Why so many concern for the book? But just about any people feel that they enjoy intended for reading. Some people likes looking at, not only science book but additionally novel and The SAGE Handbook of Feminist Theory or maybe others sources were given know-how for you. After you know how the fantastic a book, you feel need to read more and more. Science publication was created for teacher or even students especially. Those textbooks are helping them to include their knowledge. In different case, beside science publication, any other book likes The SAGE Handbook of Feminist Theory to make your spare time considerably more colorful. Many types of book like this one.

Harry Barnes:

A lot of guide has printed but it is unique. You can get it by world wide web on social media. You can choose the very best book for you, science, comedy, novel, or whatever by searching from it. It is referred to as of book The SAGE Handbook of Feminist Theory. Contain your knowledge by it. Without leaving behind the printed book, it could add your knowledge and make you happier to read. It is most essential that, you must aware about e-book. It can bring you from one spot to other place.

Preston Garza:

What is your hobby? Have you heard that question when you got pupils? We believe that that query was given by teacher on their students. Many kinds of hobby, Every person has different hobby. And you know that little person such as reading or as looking at become their hobby. You should know that reading is very important along with book as to be the issue. Book is important thing to incorporate you knowledge, except your own personal teacher or lecturer. You discover good news or update concerning something by book. Many kinds of books that can you choose to adopt be your object. One of them is actually The SAGE Handbook of Feminist Theory.
