Editorial Review

Review

The author presents an attractive approach to immunohematology for medical laboratory technician students. The content is presented in an appropriate and well-organized format for the technician-level reader. The laboratory procedures can easily be adapted to the technical component of most medical laboratory courses. The recurring special features throughout the text facilitate the learning experience by incorporating an interactive approach that allows students the opportunity to reflect upon their learning in an integrated manner. The text will complement any classroom or clinical-based learning experience.
