About the Author

Michael Alexander is a Microsoft Certified Application Developer (MCAD) with more than 13 years experience consulting and developing office solutions. Michael started his career in consulting and development at the White House Communications Agency in Washington DC where he spearheaded the development of a standalone HRIS system for the White House's Military Office. He parlayed his experience with VBA and VB into a successful consulting practice in the private sector, developing middleware and reporting solutions for a wide variety of industries. He currently lives in Plano, TX where he serves as the director of an analytical services department of a $700 million company. In his spare time, he runs a free tutorial site, www.datapig technologies.com, where he shares basic Access and Excel tips with intermediate users.

Users Review

From reader reviews:

Alfred Hoover:

Have you spare time for any day? What do you do when you have more or little spare time? Yeah, you can choose the suitable activity regarding spend your time. Any person spent all their spare time to take a go walking, shopping, or went to the Mall. How about open or perhaps read a book called Microsoft Access Data Analysis: Unleashing the Analytical Power of Access? Maybe it is for being best activity for you. So now let us show you the relaxing pattern here is your body and mind will likely be pleased when you are finished reading through it, like winning a sport. Do you want to try this extraordinary paying spare time activity?

Cheryl Steele:

It is possible to spend your free time you just read this book this e-book. This Microsoft Access Data Analysis: Unleashing the Analytical Power of Access is simple to develop you can read it in the park, in the beach, train along with soon. If you did not have got much space to bring the actual printed book, you can buy often the e-book. It is make you better to read it. You can save the book in your smart phone. Therefore there are a lot of benefits that you will get when one buys this book.

Sandra Lowe:

As a scholar exactly feel bored for you to reading. If their teacher requested them to go to the library as well as to make summary for some e-book, they are complained. Just tiny students that has reading's soul or real their leisure activity. They just do what the teacher want, like asked to the library. They go to generally there but nothing reading really. Any students feel that reading is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. So , this Microsoft Access Data Analysis: Unleashing the Analytical Power of Access can make you really feel more interested to read.
