Heard on the Street: Quantitative Questions from Wall Street Job Interviews By Timothy Falcon Crack

This is a must read! It is the first and the original book of quantitative questions from finance job interviews. Painstakingly revised over 17 years and 13 editions, Heard on The Street has been shaped by feedback from many hundreds of readers. With over 50,000 copies in print, its readership is unmatched by any competing book. The revised 13th edition contains 185 quantitative questions collected from actual job interviews in investment banking, investment management, and options trading. The interviewers use the same questions year-after-year, and here they are with detailed solutions! This edition also includes over 130 non-quantitative actual interview questions, giving a total of more than 300 actual finance job interview questions. There is also a revised section on interview technique based on Dr. Crack's experiences interviewing candidates and also based on feedback from interviewers worldwide. The quant questions cover pure quant/logic, financial economics, derivatives, and statistics. They come from all types of interviews (corporate finance, sales and trading, quant research, etc.), and from all levels of interviews (undergraduate, MS, MBA, PhD). The first seven editions of Heard on the Street contained an appendix on option pricing. That appendix was carved out as a standalone book in 2004, and it is now available in its revised second edition published April 2009: "Basic Black-Scholes" ISBN=0970055242. Dr. Crack has a PhD from MIT. He has won many teaching awards, and has publications in the top academic, practitioner, and teaching journals in finance. He has degrees/diplomas in Mathematics/Statistics, Finance, Financial Economics and Accounting/Finance. Dr. Crack taught at the university level for over 20 years including four years as a front line teaching assistant for MBA students at MIT. He has worked as an independent consultant to the New York Stock Exchange, and his most recent practitioner job was as the head of a quantitative active equity research team at what was the world's largest institutional money manager.

Editorial Review

From the Author

The most common email messages I get from readers are:

1. Messages from job candidates saying that their interview questions came directly, often verbatim, from this book.
2. Messages from candidates or interviewers offering a small suggestion for improving one of the solutions.
3. Messages from interviewers who have a new question not yet appearing in the book.

I have revised the book many times to incorporate this feedback, and I invite you to send me more feedback so that I can keep revising/updating the book.

Users Review

From reader reviews:

Anthony Pisano:

The publication with title Heard on the Street: Quantitative Questions from Wall Street Job Interviews has a lot of information that you can discover it. You can get a lot of advantage after read this book. This specific book exist new knowledge the information that exist in this guide represented the condition of the world currently.
