SOA Made Simple

By Lonneke Dikmans, Ronald van Luttikhuizen

SOA Made Simple By Lonneke Dikmans, Ronald van Luttikhuizen

In Detail

SOA is an industry term which is often preached like a religion rather than taught like a technology, and over time, grasping the concept has become unnecessarily difficult. Many companies proclaim that they don't know where to begin with SOA, while others have begun their SOA effort but haven't reaped the benefits they were convinced it would bring. "SOA Made Simple" unveils the true meaning of Service Oriented Architecture and how to make it successful so that you can confidently explain SOA to anyone!

"SOA Made Simple" explains exactly what SOA is in simple terminology and by using real-life examples. Once a simple definition is clear in your mind, you'll be guided through what SOA solves, when and why you should use it, and how to set up, design and categorize your SOA landscape. With this book in hand you'll learn to keep your SOA strategy successful as you expand on it.

"SOA Made Simple" demystifies SOA, simply. It is not difficult to grasp, but for various reasons SOA is often made unnecessarily complex. Service-orientation is already a very natural way of thinking for business stakeholders that want to realize and sell services to potential clients, and this book helps you to realize that concept both in theory and practice.

You'll begin with a clear and simple explanation of what SOA is and why we need it. You'll then be presented with plain facts about the key ingredients of a service, and along the way learn about service design, layering and categorizing, some major SOA platform offerings as well as governance and successful implementation.

After reading "SOA Made Simple" you will have a clear understanding of what SOA is so you can implement and govern SOA in your own organization.

Approach

"SOA Made Simple" is a concise and indispensable handbook for finally understanding exactly what Service Oriented Architecture is. Split into three clear sections, in this book you'll learn from both theory as well as step-by-step

implementation examples to aid in your understanding of this often poorly-articulated industry term.

Who this book is for

If you are an architect who wants to be completely clear in your understanding of what SOA is, then this book is essential. In fact, anyone (designer, developer, administrator or team lead) who is implementing or about to implement an architecture in an IT environment should not miss out on "SOA Made Simple".

Some previous experience with general software architecture is required, but this guide will tell you everything you need to know about SOA in a clear and easy fashion.

Editorial Review

About the Author

Lonneke Dikmans

Lonneke Dikmans lives in the Netherlands with her husband and two children. She graduated with a degree in cognitive science from the University of Nijmegen in the Netherlands. She started her career as a usability specialist but went back to school when she lived in California to pursue a more technical career. She started as a JEE developer on different platforms such as Oracle and IBM, and specialized in integration. She now works as an architect, both on projects and as an enterprise architect. She has experience in different industries such as financial services, government, and utilities. She advises companies that want to set up Service Oriented Architecture and Business Process Management. Lonneke was one of the first five technical experts to be recognized as an Oracle Fusion Middleware Regional Director in 2005. In 2007, the program was renamed and is now known as the Oracle ACE program. Lonneke is a BPMN certified professional and was awarded the title of Oracle Fusion Middleware developer of the year by Oracle Magazine in 2007.

Lonneke is the managing partner of Vennster with Ronald van Luttikhuizen. Vennster is a knowledge-driven organization. Vennster's single most important ambition is to help her customers improve their products and services by improving the quality of the information flow. This is accomplished by offering services in the areas of User Experience, Business Process Management, and Service Oriented Architecture.

Lonneke has contributed to the Oracle SOA Suite 11g Handbook, Oracle Press by Lucas Jellema that was published in 2011. She publishes on a regular basis in magazines and on the internet, participates in podcasts, and speaks at international conferences about Service Oriented Architecture and Business Process Management.

Ronald van Luttikhuizen

Ronald van Luttikhuizen lives in Nijmegen, the Netherlands with his partner Susanne. He has over 10 years of experience in IT. Ronald studied Computer Science at the University of Utrecht and University of Wisconsin – Madison and received his MSc degree in 2003. Ronald creates valuable solutions for the business using a structured approach to Service Oriented Architecture. He takes into account both technical and functional aspects of a process to come up with a feasible solution. Ronald worked in projects for government, financials, energy, logistics, and services.

Ronald has experience in various roles such as architect, project lead, information analyst, software developer/designer, coach, trainer, team lead, and consultant in a wide variety of enterprise applications. He started his career as a specialist in analysis and design, application development, and application and process integration. The main technology focus in these projects were UML, Java, and XML. In later years, Ronald focused on architecture within service-oriented environments and other types of EAI environments, describing the to-be architecture, defining roadmaps, guiding implementation, and building parts of the solution.

Ronald is a speaker at (international) conferences and regularly publishes articles on Oracle Technology Network, his blog, Java Magazine, Optimize, and participates in OTN ArchBeat Podcasts. In 2008, Ronald was named Oracle ACE for SOA and middleware. Ronald was promoted to Oracle ACE Director in 2010. Ronald wrote several chapters for the Oracle SOA Suite 11g Handbook, Oracle Press by Lucas Jellema and served as a technical reviewer for the book. The book was published in 2011.

Users Review

From reader reviews:

Alice Christensen:

Reading a publication can be one of a lot of activity that everyone in the world adores. Do you like reading book consequently. There are a lot of reasons why people fantastic. First reading a reserve will give you a lot of new facts. When you read a book you will get new information simply because book is one of many ways to share the information or maybe their idea. Second, examining a book will make you more imaginative. When you examining a book especially hype book the author will bring someone to imagine the story how the figures do it anything. Third, it is possible to share your knowledge to other individuals. When you read this SOA Made Simple, you are able to tells your family, friends along with soon about yours e-book. Your knowledge can inspire others, make them reading a guide.

Roberto Senn:

Precisely why? Because this SOA Made Simple is an unordinary book that the inside of the publication waiting for you to snap it but latter it will zap you with the secret the idea inside. Reading this book alongside it was fantastic author who all write the book in such wonderful way makes the content inside easier to understand, entertaining method but still convey the meaning entirely. So , it is good for you for not hesitating having this ever again or you going to regret it. This phenomenal book will give you a lot of gains than the other book get such as help improving your ability and your critical thinking method. So , still want to hold off having that book? If I were you I will go to the publication store hurriedly.

Leon Moses:

As a pupil exactly feel bored for you to reading. If their teacher inquired them to go to the library or even make summary for some publication, they are complained. Just minor students that has reading's heart or real their hobby. They just do what the teacher want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that looking at is not important, boring along with can't see colorful photographs on there. Yeah, it is being complicated. Book is very important for you. As we know that on this era, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this SOA Made Simple can make you feel more interested to read.

Michael Lockwood:

Some individuals said that they feel fed up when they reading a publication. They are directly felt it when they get a half regions of the book. You can choose typically the book SOA Made Simple to make your

current reading is interesting. Your own personal skill of reading proficiency is developing when you such as reading. Try to choose easy book to make you enjoy to read it and mingle the feeling about book and reading through especially. It is to be first opinion for you to like to open a book and go through it. Beside that the e-book SOA Made Simple can to be your brand-new friend when you're really feel alone and confuse in doing what must you're doing of that time.
