Beyond the Red By Ava Jae

Alien queen Kora has a problem as vast as the endless crimson deserts. She's the first female ruler of her territory in generations, but her people are rioting and call for her violent younger twin brother to take the throne. Despite assassination attempts, a mounting uprising of nomadic human rebels, and pressure to find a mate to help her rule, she's determined to protect her people from her brother's would-be tyrannical rule.

Eros is a rebel soldier hated by aliens and human alike for being a half-blood. Yet that doesn't stop him from defending his people, at least until Kora's soldiers raze his camp and take him captive. He's given an ultimatum: be an enslaved bodyguard to Kora, or be executed for his true identity—a secret kept even from him.

When Kora and Eros are framed for the attempted assassination of her betrothed, they flee. Their only chance of survival is to turn themselves in to the high court, where revealing Eros's secret could mean a swift public execution. But when they uncover a violent plot to end the human insurgency, they must find a way to work together to prevent genocide.

Editorial Review

From School Library Journal

Gr 6-9-Kora and Eros cannot be more different: one an alien queen who is fighting to keep the throne from her power-hungry brother and the latter a half-breed human who has never belonged anywhere. This work is told in alternating perspectives and is set in the future on Safara, a desert alien planet in Earth's universe. Kora and Eros are thrust together, and the duo are forced to unite after being framed for an assassination attempt on Kora's betrothed, Serek. The three protagonists not only form a compelling love triangle but are also the world's sole hope to prevent a mass genocide. Fierce and beautiful Kora must navigate her way through court politics, revolutions, and secrets while red-blooded Eros finds himself to be much more important than he ever could have imagined. Serek holds everyone together with his calm yet authoritative nature. Jae's debut novel introduces a unique alien world with a thrilling plot full of twists that are bound to appeal to sci-fi fans, particularly admirers of *Avatar* and *Star Wars*. The fast-paced and intense plotlines introduce deep concepts including segregation, homosexuality, and racism; however, the concepts and characters are not fully developed. The author builds a beautifully conceived world with unique details, such as language quirks, an alien monarch ruling system, and special meaning for phrases such as "golden eyes." The fun and engaging plot is predictable but enjoyable. **VERDICT** An engaging and amusing read for fans of sci-fi romance.-Emily Bayci, Public Library of Cincinnati and Hamilton County, OH(c) Copyright 2011. Review

"Kora is the first female ruler of the Sepharon in generations, but her ambitious twin brother, Dima, wants to rule in her stead. To that end, he is willing to do anything, including framing Kora for an assassination attempt on her fiancé, Serek. Meanwhile, Kora has taken as bodyguard and confidant the half blood Eros, whose mixed race makes him a pariah among both the nomadic human rebels of the planet and the citydwelling alien Sepharon, a tall, strong humanoid race with patterned skin, notched ears, and purple blood. **In alternating chapters narrated by Eros and Kora, Jae spins a cinematic tale of forbidden love and Machiavellian politics. With detailed history, architecture, customs, inventions, and landscape, Jae creates a fascinating new world to explore. The breathless pace of the plot, smoldering romance between Kora and Eros, and inventive yet comfortably familiar world will engage science fiction and romance readers alike. A true cliff-hanger ending guarantees a sequel. Blogger and college student Jae has laid the groundwork for an entertaining series.**" ?*Booklist*
