The New Paradigm: Ancient Concepts for Modern Christians By Vicky Anderson

What isn't commonly understood about the man named Jesus is that, by expanding his state of consciousness and walking the spiritual path, he was able to balance the basic chemical elements of his physical body and transform his DNA into a DNA matrix. This transfigured his mortal body into an immortal body of Light.

All of humanity is one consciousness. We are currently experiencing a spontaneous evolution through our DNA. We can reach this paradigm by giving up the addiction to the physical form and adopting a new way of perceiving reality – one of light, love, prosperity, unity and the consciousness of Christ.

"Listen, I tell you a mystery: we will all be changed - in a flash, in the twinkling of an eye, at the last trumpet." I Corinthians 15:51

The atomic number for the Carbon element is 6. Carbon is necessary to form all DNA and RNA, the chemical code of life as it currently exists. The Carbon atom has 6 electrons, 6 neutrons and 6 protons. It is we who are 'The Beast.'

"If anyone has insight, let him calculate the number of the Beast, for it is the number of a Man." Revelation 13:18
