### Editorial Review

“This beautifully photographed book offers instruction and inspiration to jewelry makers of all levels working with precious and non-precious metals. Jinks McGrath, a designer and jeweler, begins with an introduction to the tools, including cutting tools, soldering tools, chemicals, and metals, including silver, bronze, rhodium and zinc, used in jewelry creation. She then considers different metalwork techniques including basic techniques like fusing, surface treatments like hallmarking, and specialist techniques like enameling. She ends with additional tips for professionals or artists who wish to take their work to the next level including advice on workshop design, selling, and guilds and other associations.”

—*Protoview.com*

“McGrath, an experienced jewelry maker, condenses her knowledge of metalworking methods into this comprehensive reference that covers all steps of the process from the selection of tools and materials to design and creation of the finished piece. Some knowledge of the fundamentals is assumed: this isn’t a beginner’s book, though it would serve as an excellent resource for novices with a strong interest in learning more. With its thorough coverage of the topic, attractive photographs, and clear instructions, this title is an excellent addition to jewelry and metalwork collections.” ? *Library Journal* starred review About the Author Jinks McGrath is a U.K.-based designer and jewelry maker. Her work has been inspired by a number of visits to India, Thailand, and Africa where she worked alongside local masters. Users Review**From reader reviews:**
