Panel Data Analysis using EViews By I. Gusti Ngurah Agung

A comprehensive and accessible guide to panel data analysis using EViews software

This book explores the use of EViews software in creating panel data analysis using appropriate empirical models and real datasets. Guidance is given on developing alternative descriptive statistical summaries for evaluation and providing policy analysis based on pool panel data. Various alternative models based on panel data are explored, including univariate general linear models, fixed effect models and causal models, and guidance on the advantages and disadvantages of each one is given.

Panel Data Analysis using EViews:

- Provides step-by-step guidance on how to apply EViews software to panel data analysis using appropriate empirical models and real datasets.
- Examines a variety of panel data models along with the author's own empirical findings, demonstrating the advantages and limitations of each model.
- Presents growth models, time-related effects models, and polynomial models, in addition to the models which are commonly applied for panel data.
- Includes more than 250 examples divided into three groups of models (stacked, unstacked, and structured panel data), together with notes and comments.
- Provides guidance on which models not to use in a given scenario, along with advice on viable alternatives.
- Explores recent new developments in panel data analysis

An essential tool for advanced undergraduate or graduate students and applied researchers in finance, econometrics and population studies. Statisticians and data analysts involved with data collected over long time periods will also find this book a useful resource.

Users Review

From reader reviews:

Austin Lawrence:

The guide untitled Panel Data Analysis using EViews is the book that recommended to you you just read. You can see the quality of the reserve content that will be shown to you actually. The language that author use to explained their ideas are easily to understand. The article writer was did a lot of investigation when write the book, therefore the information that they share to your account is absolutely accurate. You also could possibly get the e-book of Panel Data Analysis using EViews from the publisher to make you more enjoy free time.

Mark Montague:

Spent a free the perfect time to be fun activity to accomplish! A lot of people spent their free time with their family, or their friends. Usually they undertaking activity like watching television, gonna beach, or picnic inside the park. They actually doing ditto every week. Do you feel it? Will you something different to fill your own personal free time/ holiday? Could possibly be reading a book might be option to fill your free of charge time/ holiday. The first thing that you will ask may be what kinds of reserve that you should read. If you want to attempt look for book, may be the publication untitled Panel Data Analysis using EViews can be very good book to read. May be it can be best activity to you.

Sena Meyer:

The reason why? Because this Panel Data Analysis using EViews is an unordinary book that the inside of the guide waiting for you to snap the item but latter it will jolt you with the secret it inside. Reading this book next to it was fantastic author who else write the book in such incredible way makes the content interior easier to understand, entertaining way but still convey the meaning entirely. So , it is good for you because of not hesitating having this any more or you going to regret it. This amazing book will give you a lot of rewards than the other book possess such as help improving your expertise and your critical thinking way. So , still want to hesitate having that book? If I were you I will go to the guide store hurriedly.

Matthew Haley:

In this era globalization it is important to someone to get information. The information will make anyone to understand the condition of the world. The health of the world makes the information much easier to share. You can find a lot of referrals to get information example: internet, magazine, book, and soon. You will observe that now, a lot of publisher this print many kinds of book. The particular book that recommended to your account is Panel Data Analysis using EViews this e-book consist a lot of the information of the condition of this world now. That book was represented just how can the world has grown up. The terminology styles that writer use to explain it is easy to understand. Typically the writer made some analysis when he makes this book. This is why this book ideal all of you.
