The Thinking Teacher's Toolkit: Critical Thinking, Thinking Skills and Global Perspectives By Ruth Matthews, Jo Lally

A group of leading scholars has written a book arguing for the revitalisation of Christian spiritual traditions. Relying heavily on the spiritual genius of the great masters of the past - Augustine, Ignatius of Loyola, Teresa of Avila - this is also a book culturally attuned to men and women today. There are brilliant chapters on Samuel Beckett, Patrick Kavanagh, and Tony de Mello, and on the value of past classics for present spiritual growth. There is here no intellectual pirouetting - this is the theology of experience and of existential openness to transcendence.

Editorial Review

Review

'For any teacher who wants clear, practical advice about the delivery of courses focused on thinking skills, this book will be extremely helpful. The authors' enthusiasm for developing vital skills is infectious, and their guidance is rooted in the realities of the classroom.'

Mike Wells, former Deputy Head and Head of Sixth Form, UK

From the Back Cover

Designed to provide a complete guide for teachers of thinking skills, reasoning and critical thinking to 14-19 age groups, everything you could need to be a thinking teacher is packed into The Thinking Teacher's Toolkit, including:

- an introduction to what thinking skills are, why you are equipped to teach them and how you can apply your previous experience
- clear approaches to preparing to teach, whether you are a coordinator seeking guidance on setting up a thinking skills course from scratch, a thinking teacher putting together thought-provoking lesson plans or a subject teacher looking for ideas on integrating critical thinking skills across the curriculum; and
- advice on how to handle assessment, including information on a variety of qualifications available internationally.

In addition, there is a companion website containing tools for developing your professional expertise, answers to frequently asked questions, handouts for pupils and PowerPoint's to use in the sample lessons. This is the ultimate toolkit for any teacher wanting to improve their students reasoning and problem-solving skills.
